## What's New in the?

+ What it is: oggchan is an easy to use, wizard based application designed to enable you to convert and embed music into image files. + What it does: oggchan is an easy to use, wizard based application designed to enable you to convert and embed music into image files. The music will be extracted and displayed as an image using a specified image file. You can use this software solution whenever you want to batch extract media from such images. + How to use it: You can use oggchan to extract and embed music as follows: 1. Specify an image file which will be used to display the embedded music. 2. Select the music you want to embed into the image. 3. Hit the "Convert and embed music" button to start the conversion process. 4. You will be presented with an image of the embedded music. + More Features: You can use oggchan to extract and embed music as follows: 1. Specify an image file which will be used to display the embedded music. 2. Select the music you want to embed into the image. 3. Hit the "Convert and embed music" button to start the conversion process. 4. You will be presented with an image of the embedded music. 5. oggchan can embed more than one song at once. 6. The song selected will be embedded in the specified image file. 7. You can select the track length and the compression ratio of the embedded song. 8. You can select the file extension of the output file. + Additional Files: You will need an OpenSSL compatible tool like testing if an oggchan embedded file is working. You will need a C++ compiler for testing if an oggchan embedded file is working. You will need a Java toolkit for testing if an oggchan embedded file is working.27th February 2019, 16:54 To mark the upcoming 25th anniversary of the Special Olympics on 26th March, Halo is pleased to announce a number of changes to our community events. We're reducing the number of major community events from two to one in 2019, and moving them to a more regular format. The first Major Community Event will be the Halo: Reach Championship Series Finals in Dublin on Friday 26th March. We will stream the event live on Halo.gg and Twitch.tv. The tournament will take place at the Microsoft Office Club, Ranelagh, Dublin 4, and will be open to the public from 3.30pm to 6pm. This tournament will be a Halo: Reach 7v7 regional team tournament, with individual qualifiers for each of the regions to determine the top 16 teams. As in previous years, the community qualifier tournaments will be held concurrently with this

---
